

JAMES

FROM THE HOME OF JAMES AERATORS AND MOLE PLOUGHS

Round Baleage Tipper

- Transports and Stands Wrapped Round Bales on End for Storage •

Now available as a single or dual unit

- It's Quick • It's Convenient • It's Efficient •

Advantages

Thick layers of plastic on bale ends provide superior protection against ground moisture and weather while stored.

No flat sided bales (simplifies feeding out).

Less storage area required.

Suitable for medium H.P. tractors

3 P.L. mounted (no front axle stress)

Bale tipped in one easy movement

No need to reposition bale before tipping

Simply trip and flip
